Dignity Health
French Hospital Medical Center

OUR MISSION

As a member of Dignity Health, French Hospital Medical Center partners with the community to improve the quality of life here, and dedicates resources to delivering compassionate, high-quality, affordable health services that help and advocate for our disenfranchised sisters and brothers.

OUR VISION

We strive to create a vibrant, national health care system known for service, chosen for clinical excellence, while also standing in partnership with patients, employees and physicians to improve the health of all communities served.

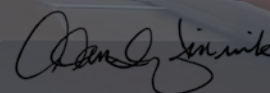

WELCOME

As you'll see from the stories that follow in this Impact Report, the past year has been one of exciting transformations for French Hospital Medical Center and the Foundation. We are delighted to share these stories with you – knowing that the support of our community is the reason they were ever possible to begin with.

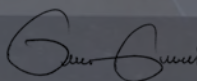

Transformation is defined as a “marked change in appearance.” This is truly the best way to describe what is happening at French Hospital. In the past year, we've broken ground for the new Copeland Health Education Pavilion, reached our \$6.4 million goal for our “French – Well into the Future” Capital Campaign, and unveiled our newly remodeled hospital entrance, atrium and healing garden. We also celebrated being once again named a Top 100 Hospital in the nation, which we credit to the high quality, compassionate care exemplified by all of our physicians, nurses and staff.

Our ultimate goal is to offer the entire community a place to gather for health, healing, education and research. Thanks to you, our supporters and donors, we are able to move toward this goal with transformations that will result in local access to leading health care.

As a not-for-profit hospital, we know that our community and donors are the reason we can help families and individuals thrive in good health. Together, we will continue to be recognized as one of the best places for health care in the United States, always striving to make a difference in the lives of the people who call San Luis Obispo County home.

COPELAND HEALTH EDUCATION PAVILION

COPELAND FAMILY DONATES PAVILION BUILDING TO ADVANCE HEALTH EDUCATION AND RESEARCH

As health care education and research are constantly advancing and improving, French Hospital Medical Center (FHMC) is taking steps to stay ahead of the curve with the new Copeland Health Education Pavilion. The Pavilion will provide the community with the most advanced health care research facilities and education resources, free of charge.

When complete, the three-story, 18,000 square foot Copeland Health Education Pavilion will include two classrooms, a conference room, boardroom, and two full-size simulated hospital patient rooms for training medical professionals. The Pavilion also includes an educational auditorium with floor-to-ceiling windows on the top floor that will be able to accommodate up to 175 people.

MAKING IT POSSIBLE

Help from two local couples has made this multimillion-dollar project possible for the community. Jim and Sandy Copeland and Tom and Pam Copeland have helped to make the Pavilion a reality, donating the entire building to FHMC.

The Copelands are longtime San Luis Obispo residents, recognized business leaders, philanthropists, and avid supporters of FHMC. Previously, the Copeland family was instrumental in creating the Copeland, Forbes and Rossi Cardiac Care Center and was a major contributor to the “French – Well into the Future” Capital Campaign. Jim Copeland, former FHMC Community Board Chairman, believes that community investment is important to secure a bright future for the hospital and therefore, sustained health care excellence for everyone on the Central Coast.

As a hub for health care education, the Pavilion will provide a variety of preventive health education classes to the community through a new Community Wellness Program, free of charge. The Pavilion will also house two advanced learning

facilities: the Institute for Health Education and Research and the James R. Flanagan Simulation Learning Center.

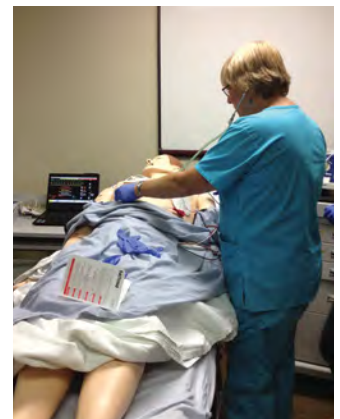

INSTITUTE FOR HEALTH EDUCATION AND RESEARCH

The Institute for Health Education and Research will be devoted to cutting edge scientific health care informatics and prevention research. Included within the Institute will be a research lab and an “idea incubator lab” – an interactive conference room for developing research projects. The Institute will collaborate with California Polytechnic State University San Luis Obispo (Cal Poly) to conduct research related to disease prevention and health promotion on a national level.

JAMES R. FLANAGAN SIMULATION LEARNING CENTER

The James R. Flanagan Simulation Learning Center will be at the forefront of simulation learning technology. The center will include a full simulation lab that will have two classrooms mirrored to hospital rooms to ensure the most realistic and effective training possible.

This Learning Center will have four simulation manikins that mimic all patient types, including a male that simulates various medical conditions, a female obstetrics patient that simulates childbirth, a baby

FHMC staff will receive training on one of four simulation manikins in the new Simulation Learning Center.

The new Copeland Health Education Pavilion is scheduled to open in fall 2015.

simulation manikin and a juvenile simulation manikin. The manikins will provide medical staff and nursing professionals with realistic training to teach new procedures and ensure their skills are up-to-date.

The Copeland Health Education Pavilion is expected to open in fall 2015. The FHMC Foundation continues to seek additional support to complete the new technology and interiors of the Pavilion. For more information or to donate please contact 805.542.6496 or visit www.supportfrenchhospital.org.

Sandy, Jim, Pam and Tom Copeland

CHAMPIONS FOR HEALTH AND INNOVATION

LOCAL COUPLE INVESTS IN HEALTH EDUCATION AND RESEARCH TO BENEFIT OUR COMMUNITY

William and Linda Frost, longtime San Luis Obispo County residents, were looking for a unique opportunity to help improve the lives of others in our community. They have long been impressed with the many advances and facility improvements made by French Hospital Medical Center (FHMC) and support the continuing transformations underway.

With a long history of supporting the sciences, research, and education, the Frosts felt that investing in FHMC's Copeland Health Education Pavilion was the best way to make a difference in improving the delivery of health care in our community. The couple pledged a gift of \$1,000,000 to FHMC, specifically to support the Pavilion's infrastructure, technologies and training facilities, such as the Institute for Health Education and Research and the James R. Flanagan Simulation Learning Center.

"We fully support the vision and leadership of FHMC to recognize the importance of health care education and research in our community," expressed the Frosts. The educational resources in the Pavilion will largely benefit the community and help continue to bring the best physicians and health care professionals to French Hospital Medical Center.

While the effects of the Frost's gift are immeasurable, there is no doubt that countless people in our community will benefit from leading medical care for years to come, thanks to their generosity.

COPELAND HEALTH EDUCATION PAVILION COMMEMORATIVE OPPORTUNITIES

To commemorate the generosity of its supporters, French Hospital Medical Center Foundation has created opportunities for a public and enduring record of those who contribute generously to French Hospital Medical Center. The following naming opportunities are available and gifts may be pledged over a three to five year period. For more information, please contact the Foundation at 805.542.6496 or email FHMCFoundation@DignityHealth.org.

FOUNDATION ACHIEVES \$6.4 MILLION CAMPAIGN GOAL

FRENCH **WELL INTO THE** **FUTURE**

French Hospital Medical Center (FHMC) Foundation has actively engaged our supporters and the community to help reach the ambitious goal of raising \$6.4 million to support “French – Well into the Future” – a \$30 million FHMC renovation and expansion project. Thanks to the support of our donors and the community, the campaign goal was reached in late 2014. FHMC Foundation celebrated the completion of the “French – Well into the Future” Capital Campaign during a special celebration on February 26, 2015, at Biddle Ranch Vineyard Tasting Room.

Through the “French – Well into the Future” campaign, FHMC has embarked on an important journey to transform our 40-year-old facility to accommodate the future era of medicine and new state-of-the-art technology, with a focus on providing the best patient experience possible. Once the renovation and expansion project is complete, nearly every corner of the hospital will be improved, with a special focus on five initiatives. Three projects are now complete – the George Hoag Family Advanced Hybrid Surgical Suite, a newly remodeled Intensive Care Unit, and the new Outpatient Suite – with two more projects well underway – the remodel and expansion of the Stollmeyer Family Birthing Center (Spring 2016) and the new Specialty Patient Care Wing focused on orthopedic patients (Fall 2015).

FHMC is truly the community’s hospital and, as a not-for-profit hospital, much of our success is due to the support of our community. The Foundation extends its sincere gratitude to our many donors who contributed to the “French – Well into the Future” campaign. Philanthropic support from the community is a key element in our ability to continue delivering high-quality, compassionate care to everyone in San Luis Obispo County.

FRENCH HOSPITAL CELEBRATES TOP 100 HOSPITAL RECOGNITION

On May 13, 2015, more than two hundred members of the community, FHMC staff and board members gathered at FHMC for the grand opening of

French Hospital's new entrance, lobby and healing garden. Following a ribbon-cutting ceremony, attendees walked through the new hospital entrance for the first time, admiring the new glass atrium that ushers visitors to both a newly remodeled lobby and a new healing garden, located on the north side of the atrium. As part of the opening, French Hospital also celebrated once again being named a Top 100 Hospital in the nation by Truven Health Analytics, a distinction made possible by the dedication of our physicians, staff, volunteers and the support of our donors and the community.

The remodel of the hospital entrance, lobby and healing garden is part of the hospital's modernization project and was designed to provide patients, their families and visitors with a more positive experience while waiting at the hospital. A well-appointed, comfortable lobby provides families and patients with a warm and inviting waiting area, a remodeled gift shop welcomes visitors, and an expanded donor recognition wall recognizes those who have contributed to FHMC. The addition of an atrium to the hospital offers more seating options for those who wish to enjoy the new garden spaces while remaining indoors. An expanded outdoor healing garden with art installations and soothing water features provides a serene, relaxing area for patients, visitors and staff alike. By providing more relaxing, welcoming waiting areas and outdoor areas, FHMC hopes to help alleviate stress and provide patients, their families and visitors with the most positive hospital experience possible.

French Hospital celebrated the opening of a new hospital entrance with a ribbon cutting ceremony.

The new healing garden offers a quiet place for reflection.

GENEROSITY PAVES WAY FOR NEW BIRTHING CENTER

LOCAL ENTREPRENEUR AND FORMER OB NURSE GIVE BACK TO MAKE MIRACLES HAPPEN

When Rick Stollmeyer and Lori Ryan had their first daughter at French Hospital Medical Center, they never could have anticipated the major impact that they would one day have on the hospital's birthing center.

Rick, co-founder and CEO of local software solutions company MINDBODY, recalls being so impressed with the care at French Hospital during his daughter's delivery that he encouraged Lori to get a job there. Taking his suggestion, it wasn't long before Lori began working at the hospital, where she worked for 12 years and eventually became an assistant nursing supervisor in the Family Birthing Center.

During the time that Lori was caring for new and soon-to-be families, Rick was hard at work on his own project in the garage of their home. Flash forward to present day and that project – MINDBODY Inc. – would generate revenue of over \$70 million in 2014 and go public in late June 2015.

"Not only did Lori love her job at French Hospital, but it also gave me the opportunity to focus on my company and pursue the advancement of this technology that I really believed in," says Rick. "Since the hospital played a role in the development of MINDBODY, it seemed only right that Lori and I should play a role in the development of the hospital."

In 2014, Rick and Lori made the decision to give \$1 million to the "French – Well into the Future" Capital Campaign, which includes the expansion and remodel of the hospital's Family Birthing Center. The donation, which was first announced at French Hospital's annual Celebration of Caring Gala in September 2014, was the final donation to help the campaign reach its fundraising goal. In recognition of their generosity, the new center will be named the Stollmeyer Family Birthing Center.

The Stollmeyer Family Birthing Center will increase the birth capacity of the hospital, which currently delivers more than 575 babies every year. With construction costs

estimated at \$4 million, this will be the first major upgrade for the center since its opening 16 years ago. The expansion will include a family waiting area, an upgraded nursing station with the latest technology, and additional private birthing rooms. In addition, a new C-Section suite will be added to the Stollmeyer Family Birthing Center, which will enhance service delivery as expecting mothers will no longer have to travel down the hall for surgery.

"Since the hospital played a role in the development of MINDBODY, it seemed only right that Lori and I should play a role in the development of the hospital."

The substantial donation to the new birthing center becomes even more meaningful knowing that both French Hospital and MINDBODY have the shared goal of improving health and wellness through technology and innovation. Although Rick and Lori are no longer together and have both remarried, this gift is special to their blended families and important to their new spouses, too.

"My time at the hospital was so rewarding," says Lori. "I loved working with such a qualified staff knowing I was making a difference in the lives of local families. I can't imagine how much added value the new Family Birthing Center will bring to San Luis Obispo County. Rick and I are really excited to be part of the advancements; being able to make this gift means a lot to us both."

Construction on the Stollmeyer Family Birthing Center has already begun and is expected to be complete in the spring of 2016.

CREATING A LASTING LEGACY THROUGH A GRACIOUS PLANNED GIFT

LOCAL RANCH OWNERS DESIGNATE A PORTION OF THEIR RANCH TO BENEFIT FRENCH HOSPITAL

Stan and Barbara Clark were accustomed to the hustle and bustle of living in Los Angeles. In the midst of city life, they knew that their upcoming transition to a cattle ranch on the Central Coast would mean big changes in their lifestyle. What they didn't see coming was the tachycardia that would cause Stan's heart to beat at a life-threatening rate, and the close proximity of a top hospital that would be ready to help him.

Stan and Barbara Clark relocated to the Central Coast 15 years ago. While they initially made the move in order to settle down and retire, their relocation to a 3,000-acre cattle ranch north of Paso Robles has kept them busy in a new way. The Clarks' property, known as San Bartolome Ranch, is located on the South Shore of Lake San Antonio and includes three homes.

Now, as the couple looks to the future, the Clarks recognize the opportunity to make an impactful, lasting gift to French Hospital – a planned gift of a portion of the proceeds from the eventual sale of their ranch as established in their Charitable Remainder Trust. When the Ranch eventually sells, whether during their lifetime or after, the trust provides for a portion of the sale to go directly to the French Hospital Medical Center Foundation.

"I'm sending you to French, because they're the best."

The decision to make such a significant contribution comes as a result of the care that Stan received when he unexpectedly had to be taken by ambulance to French Hospital. Upon completing an EKG in a Templeton office, he was suddenly told by his doctor that he was in the midst

of having a heart attack. Stan recalls the doctor calling an ambulance and saying "I'm sending you to French, because they're the best."

As it turned out, Stan was not having a heart attack, but his heart rate was so high that it mistakenly passed for one. The team at French Hospital quickly responded with an emergency cardioversion to lower Stan's heart rate to a stable level. "When I got there, there was no waiting around," says Stan. "They took me right in and started working on me."

Barbara, who had also previously dealt with heart complications in Los Angeles, is excited to contribute to French Hospital knowing that people who will need similar treatments in the future can receive that high quality care without leaving San Luis Obispo County.

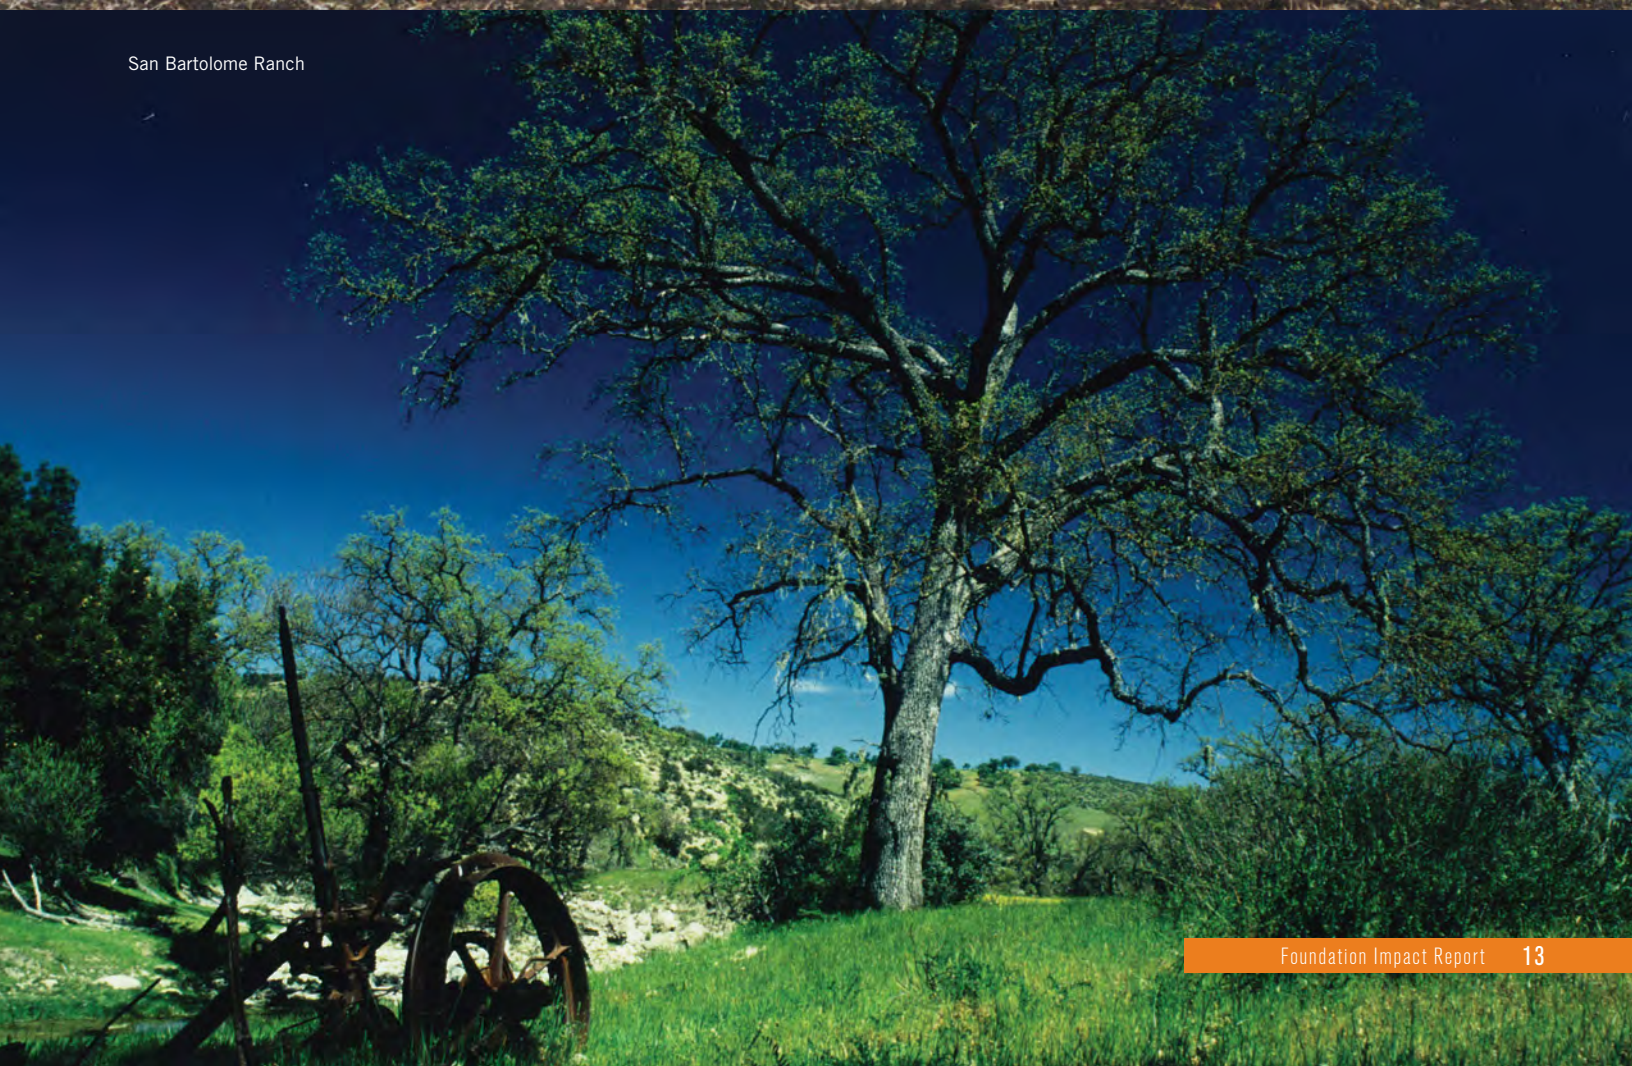

"We were initially feeling pressure from our family back in LA," recalls Barbara. "They were worried we weren't going to have the ability to find quality care here, and they wanted us to return south. We had never needed a hospital in this area before, but when we did need one, we were pleased to find there was a great one so close by."

The Clarks were so appreciative of the exceptional care they received at French Hospital that they made an initial generous contribution to support the "French – Well into the Future" campaign. As their relationship with the hospital continued to develop, the Clark's made the decision to establish this significant estate gift through their Charitable Remainder Trust, a gift of extreme generosity that will benefit FHMC patients for years to come. The couple is pleased to join the Foundation's Legacy Circle, which consists of donors who have left a legacy by establishing an estate gift to benefit French Hospital.

Stan and Barbara Clark

San Bartolome Ranch

THE LEGACY CIRCLE

SERVING THE COMMUNITY "WELL INTO THE FUTURE"

The French Hospital Legacy Circle recognizes generous individuals who have made a financial provision to French Hospital in their estate plans. As a member of the Legacy Circle, you will make an investment in the future of community health care. Your gift will ensure that the most advanced medical technology, state-of-the-art facilities and significant patient support services are available to our families, neighbors and friends.

If you have included French Hospital in your future plans, please let us know so that we can thank you appropriately. This also helps us to fully understand your intentions and ensure that a plan is in place to implement your intentions.

YOU CAN MAKE A GIFT THAT COSTS
YOU NOTHING IN YOUR LIFETIME.

Consider a gift to French Hospital Medical Center through:

- Your Will or Living Trust
- Charitable Gift Annuity
- Charitable Remainder Trust
- Retained Life Estate
- Gifts of Real Estate

To learn more about planned gifts, including options that can provide you with lifetime income and tax savings, visit our planned giving website at www.supportfrenchhospital.org and click on "Plan Your Legacy". You can also email legacycircle@dignityhealth.org or call 805.542.6496.

PERSEVERANCE, POSITIVITY AND PHILANTHROPY

Karen and Steve Chubon

Karen Chubon and her husband, Steve, were looking for a place to retire; somewhere with a strong sense of community with opportunities to give back. They found the Central Coast, where they felt like there were many ways for them to contribute to the community in a meaningful way. After Steve retired last year, Karen decided she wanted to become more active in volunteering and started learning more about the Hearst Cancer Resource Center (HCRC) at French Hospital Medical Center.

Karen felt a strong connection with the HCRC because her mother, Carol Thompson, was diagnosed with Non-Hodgkin's Lymphoma 15 years ago. The doctors gave her five years to live. Making the best out of a tough situation, Thompson fought the cancer, going through seven different rounds of chemotherapy in nine years. During this time, Karen and her mother spent a great deal of time together. In spite of everything, some of their favorite memories together were made during this difficult period.

"Nobody wants to get cancer, but we've had some of the best times going through her cancer journey together,"

Karen said. "She has taught me so much in going through this. She really does have a positive outlook and just perseveres through."

Watching her mother turn a negative situation into a positive one, it became very important to Karen to give back to others going through similar situations. She began volunteering at the HCRC two days a week, working at the front desk, greeting patients and assisting with various projects.

After learning more about the HCRC and seeing firsthand the direct impact it has on cancer patients and their families, Karen and Steve made a significant contribution to the HCRC, naming the Nurse Navigator Office in the HCRC in honor of her mother. The Nurse Navigator program provides patients with their own personal nurse to guide them through their cancer journey from the moment they receive the diagnosis. The point of the program is to offer emotional support in addition to medical assistance, and Karen witnessed how this program positively impacted people coming to the HCRC.

"It gives me goose bumps, really, when I listen to people coming in and when they leave saying that the nurse navigator has been such a lifesaver for them," Karen said. "For these patients, that resource is huge."

The resources that the HCRC provides, including the Nurse Navigator and a registered dietician, are what make the HCRC so unique. But what keeps Karen coming back week after week are the family of staff and the grateful patients.

"The people that are coming in are looking for knowledge and want to help themselves," Karen said. "I'm happier when I leave than when I come in. As hard as this is, it's a very positive place."

For more information about the HCRC or the Nurse Navigator Program, call 805.542.6234. To support the HCRC, visit www.supportfrenchhospital.org or call the Foundation at 805.542.6496.

PROVIDING HOPE AND GUIDANCE FOR CANCER PATIENTS

GRANTS HELP SUPPORT AN EXPANDED CANCER PATIENT NAVIGATION PROGRAM

Since 2008, the Hearst Cancer Resource Center (HCRC) has provided thousands of cancer patients and their families with unique resources for addressing the physical, emotional and physiological issues associated with a cancer diagnosis at no charge. The Center serves as an oasis amid a time of chaos. One of the most popular services of the HCRC has long been the highly successful Nurse Navigator service. This vital service provides an oncology nurse to help guide each cancer patient through the continuum of care, providing patients with knowledge of their disease and treatments, guidance through a complex health care system, and vital emotional support. Over the years, the demand for Nurse Navigation services has grown significantly and, thanks to generous support from the Hearst Foundations and the Avon Foundation for Women, the HCRC has expanded this service to create a new Patient Navigation Program.

The new Patient Navigation Program began in 2015 and builds on the existing Nurse Navigator services. In addition to our full-time Nurse Navigator Gloria Caine, a full-time bilingual Lay Navigator, Eloisa Medina, has been added, allowing the HCRC to offer navigation services to Spanish-speaking patients for the first time. A transportation assistance program has been established to help cancer patients hindered by their illness or financial burden to obtain the transportation necessary to get to medical appointments and the HCRC. The new grant funding will also add patient navigation software to support the HCRC Navigators and will increase public awareness efforts to ensure that cancer patients in San Luis Obispo County are aware of the free, important programs and services offered by the HCRC.

So, what does this program really mean for our patients? With two full-time Patient Navigators, it means that twice as many people will have access to essential patient navigation services, both in English and Spanish. It means that those struggling to find a way to get to their medical appointments because they can't afford transportation or because of their illness can pick up the phone to request a free ride. It means greater guidance, peace of mind and support during a turbulent time. The new Patient Navigation Program represents the quintessential concept that the HCRC was founded on – helping people through their cancer journey in any way we can.

With the ongoing support of our donors and grant funders, we can continue to support cancer patients and their families in our community.

A \$250,000 grant from the Hearst Foundations and a \$100,000 grant from the Avon Foundation for Women have expanded Patient Navigation services at the Hearst Cancer Resource Center.

WHEN LOVE IS BIGGER THAN LIFE

A CELEBRATION OF LARRY AND BETH PETERSON

Larry and Beth Peterson

Larry and Beth Peterson were the kind of people that all of us aspire to be, with the kind of love that all of us hope to have. They were parents, grandparents, teachers, volunteers, philanthropists, and friends to everyone in the community – even touching the lives of those who never knew them. The Petersons were married for 64 years and knew the true meaning of love in every aspect, which they exemplified in their service as long-time volunteers at French Hospital Medical Center (FHMC).

After moving to San Luis Obispo in 1955 and receiving her Master's Degree in Education from Cal Poly, Beth taught second grade for San Luis Coastal for thirty years. She was a beloved teacher, known for staying in touch with former students. Like Beth, Larry Peterson also received his master's degree in education from Cal Poly and taught at local elementary schools before becoming a principal at Los Ranchos in 1973. After his retirement, Larry continued in education by sitting on the SLO County Board of Education until the day he passed. He is remembered for

his unfailing sense of humor and for effortlessly cheering up everyone around him.

Among other nonprofits, Beth donated her time to FHMC, doing everything from working at the front desk to serving as the Team Captain for La French Shoppe, the hospital's gift shop. She also served on the Board of the French Hospital Volunteer Guild, as well as the FHMC Foundation Board. Beth volunteered with FHMC for 32 years, logging over 13,835 hours of service to the hospital and touching thousands of lives in the process. Larry also volunteered at FHMC for more than 14 years, logging almost 3,500 hours of service to the hospital. As avid philanthropists, the Petersons were also regular volunteers at the Performing Arts Center, People's Kitchen, local elementary schools and Mount Carmel Lutheran Church.

"Beth and Larry were an inspiration to all our volunteers," said Joyce Cameron, President of the FHMC Volunteer Guild. "Whatever they were doing to help the hospital, there was always a smile on their faces."

The Petersons joyfully served the community side by side until a brief illness led to Beth's quiet passing on Christmas morning, 2014. As if they couldn't stand to be apart, Larry followed four months later on April 29, 2015. They are survived by their sons, Jeffrey and Joel, and preceded in death by their daughter Janel. They have six grandchildren and two great-grandchildren.

The San Luis Obispo community breathed easier because of Beth and Larry Peterson. Both lived knowing that their actions could better the lives of others and so they filled their days with hundreds of acts of kindness. Teachers until the end, they showed us what it looks like to overflow with compassion, taught us how to selflessly put others first, and proved that love can in fact be bigger than life.

The Beth Peterson Memorial Scholarship Fund has been established to support Beth's passion of providing scholarships to aspiring nursing and medical students through the FHMC Volunteer Guild. If you are interested in giving to the fund, please contact the FHMC Foundation at 805.542.6496.

REMEMBERING OUR DEAR FRIEND, CAROL BROWN

French Hospital Medical Center recently lost a true and dedicated friend, colleague, and employee. Carol Brown passed away suddenly on July 11, 2015. Her passing leaves a deep hole in our hearts. Her passion and commitment to the hospital made a difference to our patients every day. Carol joined French Hospital in 1987 – 28 years ago. She held a variety of positions in many hospital departments such as Case Management, Medical Staff Office, and the Foundation.

Since 2010, she played a key role in the Foundation, organizing our many special events. Carol cared deeply for our employees and loved being in charge of our employee giving program. In late 2014, Carol became our Volunteer

Services Supervisor, working directly with the hospital Volunteer Guild and Gift Shop. With much passion and dedication, she also spearheaded our Mission Integration Team. Many will remember Carol's warm smile, good deeds, and caring heart. She loved baking cakes for employee birthdays, celebrating holidays with her special treats, and anything that had to do with the color pink.

We will miss our dear friend, Carol. She was a bright light that we wished could have burned longer. French Hospital will never be the same.

FOUNDATION EVENTS CONTINUE TO BREAK RECORDS

Together, French Hospital Medical Center (FHMC) Foundation events in Fiscal Year 2014–2015 raised more than \$881,000. The Foundation extends its sincere thanks to all event attendees, donors and volunteers.

CELEBRATION OF CARING GALA

Sponsored by FHMC Medical Staff

The 2014 Celebration of Caring Gala, held on September 6, 2014, broke all Gala event records. The 'Alpine Glow' themed event raised more than \$384,000 with a record attendance of 375 guests. The annual Louis Tedone, MD Humanitarian Award was presented to Jim Copeland for his outstanding dedication to our community.

SURFING FOR HOPE

Held in October 2014, the two-day Surfing for Hope event included a Memorial Paddle Out in honor of those who have lost their battle with cancer, a benefit dinner and auction, a Longboard Surf Contest and a health fair. More than \$50,000 was raised to support the Hearst Cancer Resource Center.

SHARE THE HOPE

Held at the stunning Hearst Castle and Hearst Ranch on April 18, 2015, this annual fundraising event for the Hearst Cancer Resource Center (HCRC) experienced record attendance and raised more than any previous Foundation event. Over \$390,000 was raised through tickets, live auction and sales of a commemorative necklace by Kevin Main Jewelry. All proceeds benefit the HCRC Endowment Fund which provides support for the HCRC in perpetuity.

THE FRENCH CUP GOLF & TENNIS TOURNAMENT

Sponsored by Heritage Oaks Bank

On June 8, 2015, 144 golfers and 24 tennis players participated in the ninth annual French Cup Golf & Tennis Tournament. The event raised more than \$57,000, a record for this event, to support the new Copeland Health Education Pavilion, currently under construction on the FHMC campus.

GRATEFUL HEARTS PROGRAM

DID YOU KNOW THAT YOU CAN HONOR A SPECIAL DOCTOR, NURSE OR CAREGIVER?

By making a gift to the Grateful Hearts Program, you can celebrate the exceptional care provided to you by a special caregiver during a visit to French Hospital Medical Center.

When you are in the hospital, gestures of humankindness can make all the difference – a warm smile or a kind reassurance. Maybe you were touched by the compassion of a caregiver, comforted by the kindness of a hospital volunteer or employee, or are simply grateful for the exceptional medical care you received at French Hospital.

The Grateful Hearts Program gives you and your loved ones a meaningful way to say thank you and offers the opportunity to thank a special doctor, nurse, department, or other caregiver who touched your life during a hospital visit or stay.

Recognize how a caregiver touched your life by making a gift in his or her honor today!

Visit www.supportfrenchhospital.org or call the Foundation at 805.542.6496.

DISTINGUISHED FRIENDS

The FHMC Foundation Caring Circle of Donors supports a wide variety of hospital programs. It is our pleasure to recognize and celebrate the generosity of those donors who have invested in their community hospital.

The Starr Family and guests at the 2014 Celebration of Caring Gala.

ONE HUNDRED PERCENT OF DONOR CONTRIBUTIONS
SUPPORT FRENCH HOSPITAL PROGRAMS AND SERVICES.

FOUNDATION FUNDS SUPPORT FRENCH HOSPITAL MEDICAL CENTER

The French Hospital Medical Center Foundation is proud to share that for fiscal year 2015, the Foundation funded more than \$503,000 in program and service needs for French Hospital patients and families.

Hearst Cancer Resource Center

To support the programs and services of the Hearst Cancer Resource Center.

\$281,092

New Anesthesia Machines

Unrestricted donor funds enabled the purchase of new anesthesia machines for FHMC operating rooms.

\$82,389

Angel of Hope Fund

To support the Hearst Cancer Resource Center's Angel of Hope Fund, which provides cancer patients with one-time financial assistance for medications, medical bills and other expenses. Since 2011, 316 people have received support from this fund.

\$48,276

Education Medical Simulator Fund

Donor provided funds enabled the purchase of two realistic simulation manikins used to provide crucial, risk-free hands-on training and education for hospital staff and physicians.

\$46,410

Medical Equipment

Two pieces of medical equipment were donated by local physicians to the hospital via the Foundation.

\$19,418

Homeless Patient Support Program

To support FHMC's Homeless Patient Support Program, which provides lodging for homeless patients requiring additional recuperation time, as well as transportation, basic survival supplies, and prescriptions upon discharge from FHMC. Funds included a grant received from the George Hoag Family Foundation.

\$16,497

Breast Cancer Outreach Fund

To provide free mammography screenings and diagnostic testing to women unable to afford these lifesaving tests.

\$9,160

Total Funds Provided to FHMC

\$503,242

FRENCH HOSPITAL MEDICAL CENTER LEADERSHIP 2014–2015
